### Call for Papers

GUTenberg is organizing Euro $\TeX$ '98 which will be a part of WEPT'98, the second Week on Electronic Publishing and Typography, including also the following conferences EP'98 (Electronic Publishing), RIDT'98 (Raster Imaging and Digital Typography) and PODDP'98 (Principles of Digital Document Processing). Euro $\TeX$ '98 will be the place where the principal actors in the field of scientific and technical publishing, especially those using  $\TeX$  as typesetting engine, will meet. Several tutorials will also be organized. The conference will be held in the corsair town of St Malo (Brittany, France) from Sunday morning March 29th to Tuesday evening March 31st 1998.

Authors are invited to submit proposals for article(s) in English **or** in French, which will be reviewed by the Programme Committee in accordance with the schedule below. The first page should contain the title of the paper and the full name, affiliation and contact details (including email address) for each author; the expected time required for oral presentation should also be specified.
